US221-4

The Fulcrum Acoustic **US221-4** is an ultra-compact, direct radiating subwoofer providing gut-wrenching impact.

The **US221-4** provides solid musicality too, not just infrasonic effects. Paralleling its two 8Ω woofers provides a 4Ω load allowing up to two US221-4 to be powered by a single channel of a high-power amplifier.

Further Information is available: [Click Here!](#)

US221-4 Features:

- 28 Hz to 188 Hz
- 2 x 21" Driver (6" Voice Coil)
- Neodymium Magnets
- 4000W @ 4Ω
- 143dB Max SPL peak
- 137db Continuous
