

Protect Speech Privacy in Conference Rooms and Boardrooms

- New product specifically for conference rooms / boardrooms
- Makes conversations unintelligible outside room
- A targeted application of sound masking
- End-user and Installer friendly

Introducing the Qt Conference Room Edition

53% of Support Staff have Overheard Confidential Conversations at Work

- Thin, modular or glass walls cause sound spill over with reduced acoustic integrity
- Open floor plans and contemporary design trends apply to conference rooms
- Speech privacy rarely addressed at design and construction stages
- A false sense of privacy in conference room designs
